

## Slowly Dying

Kitty Wells

Slowly dying, slowly dying, our love can't live for very long  
You keep lying, alibiing, ev'ryone can see there's something wrong

Used to be we were together ev'rywhere we went  
Now I wonder where you are and how your time is spent  
Slowly dying, slowly dying  
That's not the way true love was meant

Slowly dying, slowly dying, chances of the dreams we had are dim  
You're ungrateful, so unfaithful, killing a love with ways of sin

Used to be we were together ev'rywhere we went  
Now I wonder where you are and how your time is spent  
Slowly dying, slowly dying  
That's not the way true love was meant
