

Fireboy

Kix

Fireboy
I come a running to your rescue
Fireboy
You hear my bell ringing loud and true
The band's on fire, but I can be there just in time
I get your holy water, fire engine number nine

Fireboy, Fireboy
Fireboy, Fireboy

When you hear the whistle blowing, fireboy
You know baby where I'm going,
I climb up the ladder, bustin' through your window pain
I can stop the fire before it starts to flame

Fireboy, Fireboy
Fireboy, Fireboy

Take my hooking ladder right up to the top
You got me started, now I can't stop
You're deep in danger, that's what it's all about
I'm gonna put your fire out

The alarm is ringin', ringin' up the wall
Well I'm your silver servant, answer every call
Baby know my number, baby know my name
If you got a fire, if you got a flame

I come a running to your rescue
Fireboy
You hear my bell ringing loud and true
The band's on fire, but I can be there just in time
I get your holy water, fire engine number nine

Fireboy, Fireboy
Fireboy, Fireboy
Fireboy, Fireboy
Fireboy, Fireboy
