

## Love At First Sight (whiteman & Forsythe)

Kix

Oh what an explosion, my hearts gonna fail  
It was 6.8 on the Richter scale  
A vision of beauty, well I'm caught in a stare  
A red light turns green - not even aware  
I just can't help it - I'm daydreaming at night  
But just one look and it's love at first sight  
It was love -- love at first sight  
Love - Love at first sight  
Love - Love at first sight  
Love - Love at first sight  
Well I found love -- but love ain't enough  
So gimme that gimme that all that stuff  
I'm free and easy  
I got 1, 2, 3, 4 - Pretty girl friends I got to keep on getting  
while the  
getting is good  
Now 5, 6, 7, 8 - I would if I could  
My dick was very hard and she dropped down to her knees  
If that's the way she cooks such a hypermaniac  
It was love - love at first sight  
Love - Love at first sight  
Love - Love at first sight  
Love - Love at first sight  
It was love - Love at first sight  
I said love - Love at first sight  
No it was love can't ya' see  
Love at first sight  
Oh - Give me a bite
