

Admit It

Kiya Juliet

Last night we did
Just what you wanted
And this time I get
To finish what we started

All of the kissing
The touching
All the loving
We been wanting
Maybe I miss you
Or something
Don't wanna rush it
But I want it

Oh, so come over and we can roll up
And go to place we both know of
You don't have to rush go slow love, slow love

I admit it
When we did it
I could feel it
I think I get it
Can't fight this feeling
I'm so wit it
I'm so wit it
I know you wit it

I admit it
When we did it
I could feel it
I think I get it
Can't fight this feeling
I'm so wit it
I'm so wit it
I know you wit it

This vibe so right
So tonight
We'll be trading
Places that we go
Only we know
We what we doing

All of the kissing
The touching
All the loving
We been wanting
Maybe I miss you
Or something
Don't wanna rush it
But I want it

Oh, so come over and we can roll up
And go to place we both know of
You don't have to rush go slow love, slow love

I admit it

When we did it
I could feel it
I think I get it
Can't fight this feeling
I'm so wit it
I'm so wit it
I know you wit it

I admit it
When we did it
I could feel it
I think I get it
Can't fight this feeling
I'm so wit it
I'm so wit it
I know you wit it

So for tonight
I'll show you I care for ya
Taking the time
For you to be right here with me
Alone as one
Loving till the morning sun comes up up up
We don't give a fuck, fuck, fuck

I admit it
When we did it
I could feel it
I think I get it
Can't fight this feeling
I'm so with it
I'm so with it
I know you with it

I admit it
When we did it
I could feel it
I think I get it
Can't fight this feeling
I'm so with it
I'm so with it
I know you with it
