

Explanations

Kiya Juliet

All alone on a late night
Damn what's wrong with you, ooh
It's crazy how any other nigga
Would have to be in your shoes, ooh
Trippin cuz the feelings gone
Ooh so why'd you let me go
It's crazy how you pushed me out
I need some explanations

Uber
Aux not working
Wanna pull up
Don't see the purpose
Stupid
Your words get me nervous
See my calls
Now your phone's out of service, woah

Heard it all a million times, na na na
But this is where I draw the line, na na na
Would've thought that you knew by now, na na na
So many questions on my mind, mind mind mind

All alone on a late night
Damn what's wrong with you, ooh
It's crazy how any other nigga
Would have to be in your shoes, ooh
Trippin cuz the feelings gone
Ooh so why'd you let me go
It's crazy how you pushed me out

You'll never think a nigga ain't got options
I just wanna belong to you ooh
You say you're leaving and the time stayed ticking
I don't know what Imma do
I was sorry for the things that I did
Why you got a cold shoulder for the kid
I'm just tryna make up for the shit I did
Should've known you was the one that made sense

I be roaming the streets, I keep the sound with you
I get jammed, bet you better bring that bell with you
You do the crime, I do the time, I go to jail with you
Ain't no heaven without you, I burn in hell with you
