

## Tears And Solitude

Kiyo

Please just  
Let me go  
Just let me go

Please just  
Let me go  
Just let me go

Being with you now just feel like I'm all alone

Feelin the moment, just let myself open then leaving me broken  
By my amusement, thought that you'd be the one saving me, hopin  
g

That falling for you, would take me away and to heaven we cruis  
in  
But now it is over, can't move any further, 'coz now we've gone  
colder

It's been a long, long time, never thought that I'd be  
Stuck in love with you  
Stuck in in love with you

All this time  
All this time

Please just  
Let me go  
Just let me go

Please just  
Let me go  
Just let me go

Being with you now just feel like I'm all alone

I'm never gonna be the one to hold you tight  
I'm thinking bout the things I should have done that's right

Oh girl you flew me so high  
So high we reached the sky you kissed me goodbye

All this time  
All this time
