

## Firestarter

KJ-52

There's a fire up in here  
There's a fire up in here  
There's a fire up in here

Turn it up till the fire started  
Burn it up till the fire started  
Hurry up and get the fire started  
We gone spark it fire started

Now where there's smoke there's fire  
Did ya know what you hold inside ya  
It's a hope you should know to try ta'  
Let it show kind of like you'd hold a lighter  
Hold it up till there's no one brighter  
Hold it up till the glow gone blind ya  
Hold it up till it goes no higher  
And show the love of the one Messiah  
He should be ya sole desire  
But we wanna go and hide ya  
We never wanna go and shine ya  
So we roll through life like we go w/ blinders  
Can you see the souls beside ya  
Crying out for some hope in life the  
Time is now for us to go and try ta'  
Shine so bright not sort of kind a

What I wrote is with the hope desired  
That what I spoke will leave you so excited  
That you'll go and take the whole assignment  
To wake up those who wanna close they eyelids  
I state that I'm so inspired  
He is great there is no one like it  
My mistakes that I know now that I did  
He threw it all away to where no one finds it  
And I'm so reminded  
I start over like I'm slow rewinding  
Plus I know when I go w/ his timing  
Its perfect I'm certain I know that I'll find it  
It's a fact that we know just to shine this  
He comes back and you'll know that he'll find us  
On a track to bring light to the lightless  
Holla back and shine Christ to the lifeless

There's a fire up in here  
There's a fire up in here

Turn up the ac call us crazy  
We just like a little hot up in the place we  
Choose to praise he ain't no maybe  
We doing this to see the roof catch flames be  
Before you go and call the fire department  
If the spirit is falling tell me why is you calling huh  
We in the business of making his name known  
And leaving the spot blown with no way to call home  
So just stop drop and roll with it  
If Jesus is all in it then consider it finished  
He knows the need of a people that's cold

That's why he's taking control so let the fire explode
