

## Summertime

KJ-52

So take me on back to the summertime  
Man we used to laugh in the summertime  
This all we had in the summertime  
Summertime, summertime

So take me on back to the summertime (Summertime)  
Man we used to laugh in the summertime  
This all we had in the summertime  
Summertime, summertime

I'm on my summertime vibe with my summertime tribe  
There's no doubt I was a summertime child  
It's 88, I'm getting summertime wild  
Running outside, trying to get the summertime live  
Hop on my bike, then I ride till I burn dust  
Till the sunset, looking like it's burned up  
50 cents got me chips and thirst up  
I just want this and a kiss from my first crush  
It's summer break man, I ain't gone learn stuff  
I'm sleeping in late, I ain't ever first up  
My cousin over here talking about some church stuff  
But I tune him out cause I'm chasing after first love  
Did the worst stuff, plus I hurt some  
Of the closest friends cuz I was so dumb  
But the summer when the God I never heard of  
Chased me down, well that was my world, bruh

So take me on back to the summertime  
Man we used to laugh in the summertime  
This all we had in the summertime  
Summertime, summertime

So take me on back to the summertime (Summertime)  
Man we used to laugh in the summertime  
This all we had in the summertime  
Summertime, summertime

I used to hop up in the boat and just ride around  
Nowhere to go except the arcade that's in the town  
We snapping on each other when we tried to clown  
But I know they got my back yeah, they would hold me down  
I wasn't living right with the perfect crowd  
Sneaking out at night I never made a sound  
Almost had a fight at somebody's house  
That was the night when I almost burnt the island down  
A little town far from the big city  
Had my first job making like 2.50  
Everywhere I rolled, brought the crew with me  
That was the summer when the truth of God just hit me  
I was too busy, thought I had it all  
Spent my money on the honeys when I'm at the mall  
But deep inside my life's about to fall apart  
You was working on my heart when I heard you call

So take me on back to the summertime  
Man we used to laugh in the summertime  
This all we had in the summertime

Summertime, summertime

So take me on back to the summertime (Summertime)

Man we used to laugh in the summertime

This all we had in the summertime

Summertime, summertime
