

I've been here my whole life, that is my POV  
1975, that's when I came to be, born in a M.I.A  
But raised in 813 in FLA, that's where I stay  
Remains the only place for me, I'm so Florida like  
Chevy donks and gold trims  
Packed up and jacked up to the top with a gold rim  
All my Caribbeansman, they was my close friends  
I was like, what up kid, they was like, what up jit  
Rolling gold dipped, outside it's 93  
Man it's December, I'm in shorts now with no sleeves  
I watch the sunset going down between them oak trees  
Man I'm so flo like dreadheads and gold teeth  
Man it's so sweet why would I go leave  
I got no needs, cause Jesus be my whole piece  
He made me holy like three rips in an old sheet  
Now I got my soul clean, knowing that he chose me

Sun shining, blue skies in  
We vibing, it's gonna be a brighter day  
No umbrella needed, rain can never take my sunshine  
Cause it's gonna be a brighter day  
Sun shining, blue skies in, we vibing, it's gonna be a brighter day  
No umbrella needed, rain can never take my sunshine  
Cause it's gonna be a brighter day

Reported live out of Broward County from where I reside  
954 but nothing but love, down in 305  
I was slick, quick to catch a vibe  
Don't you catch a case, you don't want to leave on probation  
You came from out of state, cousins down from vacay  
License plate say they from NYC  
Careful when you moving, don't let them boys ever catch you sleep  
Yeah it's paradise but it's hell too  
Real life with them easter eggs come them shells too  
It's just my POV, feel like I'm POD  
Florida boy trying to find his way back to G.O.D.  
I've been in D.O.C., I've been at the White House  
Young fern from Hollywood, definitely like how that sounds  
And it's for Cape Coral down in St. Pete  
Staying tall, all ten, never defeat  
Florida man, Puerto Rican till I'm deceased, even in Florida  
Prison all my visits had to be increased  
K.J. and I that's a O.G. plus a double one  
On the same song about Florida that's a number one  
Came a long way from being troublesome  
To being on tracks now get a drummer some

Sun shining, blue skies in

No umbrella needed, rain can never take my sunshine
