

Brothers Of The Road

KK's Priest

We drive all day
Into the night
We never stop riding
Till the morning light

Steel wheels are shining
The engines roar
Burning up the freeway
Our adrenalin soars

Warriors of the road unite
Heavy on the metal with all your might
We're burning rubber on the road
Turning up the gas till the engines explode

We're brothers of the road and we rock, rock
We're burning up the freeway, we never stop

There's no better feeling
Than to stay on course
Overtaking speed demons
On a heavy metal horse

Warriors of the road unite
Heavy on the metal with all your might
We're burning rubber on the road
Turning up the gas till the engines explode

We're brothers of the road and we rock, rock
We're burning up the freeway, we never stop

We're brothers of the road and we rock, rock
We're burning up the freeway, we never stop

We're brothers of the road and we rock, rock
We're burning up the freeway, we never stop

We're brothers of the road and we rock, rock
We're burning up the freeway, we never stop
