

Sermons Of The Sinner

KK's Priest

Sermons of the sinner
They will preach metal and steel
Sermons of the sinner
They will help our souls to heal

He came from molten metal
His furnaces ran red hot
Forged his way to glory
Should never be forgot

He raced across the planet
To every corner of the earth
He gave his life to metal
Sacrificed all his worth

Sermons of the sinner
They will preach metal and steel
Sermons of the sinner
They will help our souls to heal

For many they were our saviour
With sounds that cut the air
Mist of time is falling
Nothing left but despair

Sermons of the sinner
They will preach metal and steel
Sermons of the sinner
They will help our souls to heal

Sermons of the sinner
They will preach metal and steel
Sermons of the sinner
They will help our souls to heal

Time is running out for us
Things may never be the same
But the sermons of the sinner
They can help us rise again

We thank you all for all you mean to us
We will never forget your name
You were always loyal and true to us
We hope one day we'll meet again

Sermons of the sinner
They will preach metal and steel
Sermons of the sinner
They will help our souls to heal

Sermons of the sinner
They will preach metal and steel
Sermons of the sinner
They will help our souls to heal

Sermons of the sinner
They will preach metal and steel

Sermons of the sinner
They will help our souls to heal
