

## December Dream

Klaatu

December dream  
The last snowfall in June  
The darkest nightmare  
Too late  
Too soon

Don't cry darling, don't cry  
We will all die  
December dream  
Don't leave me now  
December dream  
Don't let me down

December dream  
How I love you, we boast  
December dream  
I'm above you, almost

Don't cry darling, don't cry  
We will all die  
December dream  
Don't leave me now  
December dream  
Don't let me down

The dream is over
