

# Maybe I'll Move To Mars

Klaatu

Talked to a friend one lonely day  
Told me that he was going away  
He's got to live some other place

I can't stay here another day  
And to you I say  
Tomorrow I leave for outer space  
Maybe I'll move to Mars  
Maybe I'll move to Mars

Naturally I was quite surprised  
When I looked into his eyes  
To see he was quite sincere

All that I have to say  
Mars is not so far away  
How we will get there is quite clear  
Maybe I'll move to Mars  
Maybe I'll move to Mars  
One step closer to the stars  
Maybe I'll move to Mars

How will we get there?  
How will we get there?  
I can't believe that what you say is true  
And I can't leave  
I've got too much to do

Oh we can get there, we have found a way  
We're all prepared and we can leave today  
Me and my friends have worked for years  
And we have planned well, have no fears

How will we get there?  
We have found a way  
How will we get there?  
We can leave today  
Me and my friends have planned most properly  
We have built a ship that floats on gravity

And then he turned and walked away  
Can't tell you how I regret that day  
I've not seen him for years

I sent a card today to my friend so far away  
Having a nice time wish that you were here  
Maybe I'll move to Mars  
Maybe I'll move to Mars  
One step closer to the stars  
Maybe I'll move to Mars
