

Afterglow

Klangkarussell

There's no saving us
So I'm not gonna waste you
Trying to replace you
Ooh

We were made for us
And that'll always stay true
I'm always gonna crave you
Ooh

Come undone
Shades of red
All my blood
In my head
I'll still keep your space
Feel you leave in waves

Lay you down
Let you end
Made your mark
Silhouette
Every piece might fade
But I'll still know your name

I stay you go
Won't chase your ghost
Find space, find hope
Your afterglow

I stay you go
Won't chase your ghost
Find space, find home
Your afterglow
Afterglow

I let you raise me up
To something that was breakproof
But now I need a breakthrough
Ooh

Oh you gave enough
So I learned how to make do
Moving on without you
Ooh

Come undone
Shades of red
All my blood
In my head
I'll still keep your space
Feel you leave in waves

Lay you down
Let you end
Made your mark
Silhouette
Every piece might fade

But I'll still know your name

I stay you go
Won't chase your ghost
Find space, find hope
Your afterglow

I stay you go
Won't chase your ghost
Find space, find home
Your afterglow
