Love Frequency

Klaxons

I traveled from beyond the stars
Each turn was very clear
I trusted what I came to see
Reflection in my heart reminded me

I wanted well to be alone
There was no struggle here
I gave myself the master key
I am who I am, now I can see

The love frequency is in my heart
It's been with me from the start

I spoke the language of the stars
Each word was vary clear
I trusted what I learned to see
Reflections in my heart reminded me

I passed the ages and the seas
Each cycle came alive
I gave myself the master key
I am who I am, now I can see

The love frequency is in my heart
It's been with me from the start

Love surrounding me
In the frequency of love
Love…
I'm where I'm supposed to be
In the frequency of love
Love…

In the frequency
I'm where I'm supposed to be
