

## Lovers Table

Kleerup

Now I had a taste, I wanna join the feast  
But the lovers table is beyond my reach  
I've been running round like anything  
What was I gonna win, I don't want nothing  
From the lovers table denied, denied

It had to be, it had to be you  
It had to be, it had to be now  
Cause I know that you've been, I know that you've been  
I know that you've been searching  
Cause now I am found  
Now I am found

Now I had the sip, I wanna drink the rest  
But the lovers table ain't taking no guest  
Been running round and fitting in  
Acting the hero and it don't mean nothing  
From the lovers table denied, denied

It had to be, it had to be you  
It had to be, it had to be now  
Cause I know that you've been, I know that you've been  
I know that you've been searching  
Cause now I am found  
Now I am found

The lovers table  
The lovers table

It had to be, it had to be you  
It had to be, it had to be now  
Cause I know that you've been, I know that you've been  
I know that you've been searching  
Cause now I am found  
Now I am found

The lovers table
