Mom and Dad

Kleerup

I saw mom and dad making out
realizing for the first time
they were human

I saw mom and dad making out
realizing for the first time
they were human

call me if you want me back again
call me if you need a second chance
call me if you want me back again
call me if you need a second chance

I saw mom and dad making out
realizing for the first time
they were human

I saw mom and dad making out
realizing for the first time
they were human

call me if you want me back again
call me if you need a second chance
call me if you want me back again
call me if you want a second chance

call me if you want me back again
call me if you need a second chance
call me if you want me back again
call me if you need a second chance
