

Rock U

Kleerup

I never wanted, I never needed as they some would
So little timing, so much to pull, pulling me away
And I never said, I never said it would be easy!
But we sure deny it, it's in our reason, you're not the only one
It's gonna be alright,
It's gonna take some time
It's gonna be alright,
We're gonna make it alright!

I will follow you,
'Cause you're the sweetest hunger
I can't get enough of, of you
Uh, show me the way,
I walked the line just to describe me through
And if I fall to, lift my wrist and swore this rock U, rock U!

It's gonna be alright,
It's gonna be alright,
We're gonna make it alright!

I will follow you,
'Cause you're the sweetest hunger
I can't get enough of, of you
Uh, show me the way,
I walked the line just to describe me through
And if I fall to, lift my wrist and swore this rock U, rock U!
