

Trouble

Kleerup

Have you not heard?
I'm selfish, I'm the blackiest of birds
I'll eat you whole, I'll swallow your world
It's a good time
Watching me fall
Surprised that it's not pretty at all
A woman with a slippery heart
Is a good time

I got her walking, ready to go and I think you know
I got a one track mind, forgets
I'm in trouble
I'm feeling fifty nine years away and I'm so alone
I've been sitting down, waiting for days
Now I know I'm in trouble

Dressed for a shrink
Although it happened today
I think about it and I'm to blame
For the bad times
Watching me fall
Surprised that I always stand tall
I'm through with crutches, pretending we are
It's enough now

I got her walking, ready to go and I think you know
I got a one track mind, forgets
I'm in trouble
I'm feeling fifty nine years away and I'm so alone
I've been sitting down, waiting for days
Now I know I'm in trouble (x3)

I've been sitting down, waiting for days
Now I know I'm in trouble
