

1 Up

Kilo

Ooh
Could easily lose to you
But I honour my dues
It's no use, don't step on my shoes
Deja Vu

I play it cool, when I can

Feel like a tyrant
I know who I am
But you don't know who I am

Because I, I just wanna go far
Counting down all the minutes I'm missing
Getting one up
'Cause I can't miss the mark
Gotta be on the front
Then I never could say that I didn't
Get one up
It's like that, ooh

Ooh
You never could choose
Blue, when I make the first move
In truth, you never pulled through
Deja Vu

I play it cool, when I can

Sometimes I don't know what to want
You swore it only takes a moment
Translucent in the limelight
It's bright, Oh

I don't care if it takes too long
Shaking the truth, til it's too far gone
Behind the smoke screen all along
I did it

Because I, I just wanna go far
Counting down all the minutes I'm missing
Getting one up
'Cause I can't miss the mark
Gotta be on the front
Then I never could say that I didn't
Get one up
It's like that, ooh

No wrong or right
When I'm on standby
No wrong or right
When I'm taking the lead
No wrong or right
I stay in-between

No wrong or right
When I'm on standby

No wrong or right
When I'm taking the lead
No wrong or right
I stay in-between
