

Back To You

Kllo

(Back to you, back to you
Back to you, back to you)

It's personal
And I only just felt the impact
Was it from your head or mine?
I don't ever wanna be the stop in your life plans

Butterfly over
Fly over
We could recover
Never say never, yeah

Back to you, back to you
On cloud 9
Back to you, back to you
Second time
Back to you, back to you
Oh, no, I'm...
Back to you, back to you

You, you...
You, you...

Did you think that we would go on holiday?
What to say, we were miles away
If we miss the boat, would it come back someday?
What's at stake, keeping this at bay

Butterfly over
Fly over
One by the thunder
Double entendre

Back to you, back to you
On cloud 9
Back to you, back to you
Second time
Back to you, back to you
The third time
Back to you, back to you

You, you...
You, you...
You, you...
You, you...
