

Did you ever see what I was planning to do?
It could be the attitude I'm catching onto
Tragic
Still wrapped in plastic
To be encouraged
It sounds so classic

Takes a lot of love to lose the person you do
Hope there's still a place for me like I have for you
Silence
I'm ultraviolet
When you're out there
There's nothing like it

Fire burning
I'm lately
Sure fading

'Cause I'm better in reverse
I know you've got it too
I'm falling like a landslide
I'm falling in two
So meet me at the curb
I wanna be of use
It really could be worse but
I know you do too

It's not like you to be out there
But I've thinking like him
Yeah, I've been thinking cold
Give me the antidote

Could've had it all
Lived a fortunate life
Head's underwater
Couldn't find you all night

It's not like you to be out there
Give me an answer why

Fire burning
I'm lately
Sure fading

'Cause I'm better in reverse
I know you've got it too
I'm falling like a landslide
I'm falling in two
So meet me at the curb
I wanna be of use
It really could be worse but
I know you do too
