

Should we dissolve this?
It's not doing any favours

Been my desire, my pleasure, my pain
Never could see this coming
Called it forever, we're caught in the game
Or maybe we're both to blame
Putting this under pressure

You wanna ride but keep on rocking the boat
Soon it will tip us over
And there won't be another

There you go, there you go
You're saying all the things you want
Now I know I can take it
Now I see we are breaking down
Don't say it to me
There I go, there I go
I'm doing all the things you want
Now I don't think we'll make it
Now we are close to dead and gone
I know now

Just when I thought it had fallen to place
Hit me with the destruction
Fight it with fire, don't throw it away
You push me again and again and again
There's no surprises

I'll never forget that day
Dark in your eyes, couldn't make what you're saying
You were caught on your mouth, that we're dissipating
Easy come, heating up, temptation

There you go, there you go
You're saying all the things you want
Now I know I can take it
Now I see we are breaking down
Don't say it to me
There I go, there I go
I'm doing all the things you want
Now I don't think we'll make it
Now we are close to dead and gone
I know now

Should we dissolve this?
It's not doing any favours
Don't let it get between us anymore
