

Don't Be The One

Kilo

Two special ones back then
Thought of how it could've been
If I was there with you
Tried not to second guess it
Or wrap my head around it
Till you're as close to me as him

Easy to leave it
When it's instigated
Easy to leave it
Till they tell me I'm through

Movin' onto something we knew
Think about it, thought that I'd forget you
Movin' onto something we knew
And I know that I'll be there instead
Don't be the one to let me in again

Shadow that I adore
Told me so it's nothing more
Please don't keep me waiting
Not quite as like it seems
I'll turn around my knees
And knock out the evening so ready

Easy to leave it
When it's instigated
Easy to leave it
Till they tell me I'm through

Movin' onto something we knew
Think about it, thought that I'd forget you
Movin' onto something we knew
And I know that I'll be there instead
Don't be the one to let me in again

Don't let me in again
Don't let me in again
Don't let me in again
Don't let me in again
Easy to leave it (Don't let me in again)
When it's instigated (Don't let me in again)
Easy to leave it (Don't let me in again)
Till they tell me I'm through (Don't let me in again)
Easy to leave it (Don't let me in again)
When it's instigated (Don't let me in again)
Easy to leave it (Don't let me in again)
Till they tell me I'm through (Don't let me in again)
Easy to leave it (Don't let me in again)
When it's instigated (Don't let me in again)
Easy to leave it (Don't let me in again)
Till they tell me I'm through (Don't let me in again)
Easy to leave it (Don't let me in again)
When it's instigated (Don't let me in again)
Easy to leave it (Don't let me in again)
Till they tell me I'm through (Don't let me in again)

Movin' onto something we knew
Think about it, thought that I'd forget you
Movin' onto something we knew
And I know that I'll be there instead
Don't be the one to let me in again
