

Downfall

Kllo

Downfall, look beside you
Don't crawl, do remind you
Downfall will come before anything at all
Downfall, it defines you
Don't stall, do remind you
Downfall will come before

Downfall, downfall
Not all for nothing

Careful, can divide you
Don't dwell on behind
Downfall will come before it all
Everything I have come
Everything I have come to lose

Downfall, downfall
Not all for nothing

Two sides polarising
Seeing blind, it's mesmerising
We're chasing time, chasing in, in
Two sides polarising
Seeing blind, it's mesmerising
We're chasing time to lose

Downfall, downfall
Not all for nothing

Downfall
Downfall
Not all
For nothing

Pieces of my hope
Blisters with no rope
Lifting till I float
I'll cope, I'll cope

Downfall, look beside you
Don't crawl, do remind you
Downfall will come before
