

False Calls

Kllo

Ain't full, don't fight
You run your mouth with tens of thousand notes just for fun
False calls you can't recall, no
I will see you falling
But it won't be long till you fall harder than you know
My call, harsh light, your's cold, can't see mine

Don't duck your fire
Don't bring me down
Crossed lines speak lies
Don't make a sound

No need to tell us what you know
When we all know it's just for show
I hadn't seen your hands are full
Not even you know what you don't
You say you feel her by the moan
Cause you don't know is what you know
Your hands are placed, can't take a throw
You start a fight just like a dog

Blank out, lost control now
Clench your fist, you hit and miss, you claim it's just for fun
Heavy, please don't tie me down
You think you know me, but you don't, not that me
You think you know, yeah, you think you know me, but you don't
You think you know, yeah, you think you know me, but you don't

No need to tell us what you know
When we all know it's just for show
I hadn't seen your hands are full
Not even you know what you don't
You say you feel her by the moan
Cause you don't know is what you know
Your hands are placed, can't take a throw
You start a fight just like a dog
