

Insomnia

Kilo

I don't get alone at day
Get it on a midnight song
Red light on a bedtime thought
Fast, like I'm tumbling up

Got a bullet rushing through my chest
Hit me deeper with the words you said
Know me better than myself, I guess

Highest highs, low lows
Extreme, but it goes
I will follow
Cope with the air pressure

Take time you need
I'm not angry
I'll let you get up
Even if it's backwards

You know the thing about us?
Yeah, the thing about us
Would you wanna fly up?
Be the pilot
Yeah, we could glide on through

You know the thing about us?
Yeah, the thing about us
Would you wanna fly up
And surrender?
Yeah, we could land it too

Lately, why you've had a girl
Heard she's looking at the glass half full
"6 AM dance floor", I was told
In the morning won't feel it at all
I'll be wearing my hair down low
Till I vanish on my way below
I can't move it off
If I don't move at all

Oh
Go slow

You know the thing about us?
Yeah, the thing about us
Would you wanna fly up?
Be the pilot
Yeah, we could glide on through
You know the thing about us?
Yeah, the thing about us
Would you wanna fly up
And surrender?
Yeah, we could land it too
'Cause I do

If you want this too
I do

If you want this too
I do
If you want this too
I do
If you want
