

# Ironhand

Kllo

Wish I could tell you that I get excited but  
I couldn't lie of it this time  
Feel like a diamond in the rough, not in our prime  
It's not surprising we put on a pantomime  
Give me another sign

I bought you flowers  
They were expensive so what you gonna do for me next time?  
I'm not afraid of the words that make you paralyzed  
I know about her, then why am I your Valentine?  
Your honesty is not a crime

Sunshine on my shoulders  
Drinking soda and lime  
Sunshine on my shoulders  
Feel like a ghost within the night

We could make it stronger  
Forget about the past  
We could make it longer  
Yeah, we could make it last

I'm not attached to him  
I may have said it but  
I'm just an idiot sometimes  
See you later, I'm not putting up with it, no  
I didn't mean it, and that's a bad habit of mine  
Is it another sign?

Sunshine on my shoulders  
Drinking soda and lime  
Sunshine on my shoulders  
Feel like a ghost within the night

We could make it stronger  
Forget about the past  
Yeah, we could make it longer  
We could make it last

I've been waiting, anticipating  
Got me dripping cold  
Oscillating, I'm debating  
Meet up on the road

We could make it stronger  
We could make it last  
We could make it longer  
Forget about the past  
We could make it longer  
Yeah, we could make it last  
Yeah, we could make it, mmm
