

Just Checking In

Kllo

We were so lovesick when we began
The way I made you laugh helped like medicine
With the Winter falling, that beat in my chest
How I could light your eyes with no sentiment
But do I make you smile like I used to?
Do you feel alive like love can do?

How do I, how do I, how do I
Hello
How do I, how do I, how do I
Hello

Would you come jumpstart it, we could ride til the end
While the wheels went swerving, we slipped side again
Will I see you at the party, or are you staying in?
Well we could be making plans, feel in love again
Or are you gonna make me wait another week?
Are you gonna leave red roses at my feet?

You choose, you choose, you choose
Hello
You choose, you choose, you choose
Hello

I'm just checking in
I'm just checking in
