

# Make Me Wonder

Kllo

Turn down the light  
Fall back in time  
Tell me you'll go  
And I will not go  
Your mouth and bow  
Could try make me wonder  
What's on your mind  
Am I falling behind?

All you gotta say is that it's over any way we go  
Heat it when it's hot until you hold it, till I find it in snow  
No, don't get me back now, now, now  
I'll go for broke without, you make me wonder

Heart full of stone  
Why do I hold on  
When we got it all wrong?  
Days get so long here  
Eyes are wide open  
Was it always this fake here?  
Lost long ago  
Am I falling for you?

All you gotta say is that it's over any way we go  
Heat it when it's hot until you hold it, till I find it in snow  
No, don't get me back now, now, now  
I'll go for broke without, you make me wonder

Full suitcase  
What's your reason in disguising where we know we're going?  
Full suitcase  
Are you listening hard to me when we saw what's coming?  
Full suitcase  
What's your reason in disguising where we know we're going?  
Full suitcase  
Are you listening hard to me when we saw what's coming?

Holding on now, when we got it going down, holding on now  
Holding on now, when we got it going down, holding on now  
Holding on now, when we got it going down, holding on now  
Now, now, now, I'll go for broke without, you make me wonder
