

Maybe We Could

Kllo

And push on, make me weak...

Where are we off to now?
Wearing all the doubt
I am here to listen
But I can't point it out

See you in myself
More than you could tell
I've had it up to here
And I've barely stepped out
Where are we off to now?

And push on, make me weak...

Where are we off to now?
Wearing all the doubt
I am here to listen
And I can't point it out

See you in myself
More than I can tell
I've had it up to here
And I've barely stepped out
Where are you off to now?

And push on, make me weak...
