

Still Here

Kllo

Let's reign it in
It's so cold here
When I had reached out
You got no warning
But I have come back
Every time now
Is it concerning
It's all uncertain

See I am hopeless
I am still here
Do you notice
I'm not going anywhere
I'm not

Anywhere, with your coldness in the air
Anywhere, even in my own despair
Anywhere, couldn't leave it unprepared
Anywhere

Eraser
My saviour
Will you believe me
When we are older

It's not good timing
Let's keep on learning
Never entirely sure
But keep returning

See I am hopeless
I am still here
Do you notice
I'm not going anywhere
I'm not going anywhere

Anywhere, with your coldness in the air
Anywhere, even in my own despair
Anywhere, couldn't leave it unprepared
Anywhere, I'm staying here instead
