Too Fast

Kllo

I was the one who made the change
You were the one could not relate
No, not everyone's awake
See, I hope you see

Don't give up on us just yet
Full of doubt, full of regret
Love, we can do better than this
See, I hope you see

Go on, patch it all over
Go strong, be my true lover
Beyond what we could offer
Go on, go strong

Taking our time, rewind, now, rewind
Taking our time, rewind, now, rewind

Been so confusing
Brought down all our imperfections
And now we're missing them so
Lover, my all
Go too fast, we're overthinking
Puts a hole in my world, caving in

Let's go on, patch it all over
Go strong, be my true lover
Beyond what we could offer
We do it again and again
Go on, go strong, strong

Taking our time, rewind, now, rewind
Taking our time, rewind, now, rewind
Taking our time
Rewind, go too fast for love
Rewind, don't let it get us down
Rewind, go too fast for love
Rewind, don't let it get us down
Taking our time, rewind, now, rewind
Taking our time, rewind, now, rewind

I was the one who made the change (Go strong)
You were the one could not relate
No, not everyone's awake (Go strong)
See, I hope you see

Don't give up on us just yet (Go strong)
Full of doubt, full of regret
Love, we can do better than this (Go strong)
See, I hope you see
