

## Candlelight

Klone

Follow me into the abyss  
Swallow your pride and swallow your rubbish  
Let me show you the way to fame  
You know I'm lying but you enjoy what is fake  
A cure against all I reject  
A cure against all I suffer every day

This is my own candlelight  
Perfectly innocent  
A post-holocaust landscape

Follow me into the darkness  
Your whole boat is shaking  
Let me feel all your fright  
And see your face becoming bright  
You're afraid of your own shadow  
You're afraid to fall down, to dig your hole

This is my own candlelight  
Perfectly innocent  
A post-holocaust landscape

This is my own candlelight  
Perfectly innocent  
A post-holocaust landscape

Landscape  
Landscape  
Landscape

Sometimes I feel my memories  
Escaping into the night  
My obsessions stay inside of me  
Till the end of time, my own candlelight
