Klone

Here I suffocate
And I got to escape
My chances are faint
To survive in this place
I don't belong here
Got to find a way
To evacuate before I fade...
Away...

I don't belong here
Help me escape
Away from here
Take me away

Here I suffocate
And I got to escape
My chances are faint
To survive in this place
I don't belong here
Got to find a way
To evacuate before I fade away
Gotta get away
It's now or never
Take me with you
Take me away...

I don't belong here
Help me escape
Away from here
Take me away

You're my last resort, my last solution
My last recourse, my salvation
Take my hand across this land of desolation

Away...take me away...
