

## Immersion

Klone

Sweet immersion  
Slowly inside  
Deeply to feel this matter  
This core is alive

Hand me some space  
Hand me some time  
To deal with the end  
The eyes open wide

Free your inner landscape  
Draw me your most perfect line  
And join me in this resistance  
Ignore the walking shade  
Speak your mind and keep the light  
To feed our same peaceful strength

Sweet immersion

Deeply to feel this matter  
This core is alive

Hand me some space  
Hand me some time  
To deal with the end  
The eyes open wide
