

Slings And Arrows

Knocked Loose

Another night goes by and I'm stuck wondering why
What will tomorrow bring
Body's numb and I don't feel a thing
As you scream from the side
Wasted youth, wasted life
How can I help if you don't try?
You stand aside or get buried alive

One day I'm just going to snap
Breaking point, can't turn back
Talk is cheap
You bring us down
When times got tough you just backed down
As you scream from the side
Wasted youth, wasted life
How can I help if you don't try?
You stand aside or get buried alive

You only waste your breath
I won't give in, I'll fight to the death

You only waste your breath
I won't give in, I'll fight to the death
It's over now, I've had enough
You walked away
I called your bluff
