

All Wrong

Knosis

(This is all wrong)

All that I have I feel I don't deserve
Fuck success makes my head much worse
Expectations are feeling just like a curse
I liked it first but now this aneurysm has burst

Feel lost again, make em smile go wild
Here's applause again
They don't know my soul
Sealed off again
Breath slow let go need medicine
Feels awful when

This is all wrong
I'm stuck in a world where I don't belong
Cast me aside
Let all your hate bury me alive
This is all wrong

Soul weak crash out
No sleep pass out
Holding back my demons
But they're stepping on the gas now
In deep blackout
Can't breath tapout
Feeling like a zombie
And I just can't snap out

Feel lost again, make em smile go wild
Here's applause again
They don't know my soul
Sealed off again
Breath slow let go need medicine
Feels awful when

This is all wrong
I'm stuck in a world where I don't belong
Cast me aside
Let all your hate bury me alive
This is all wrong

Don't know myself
Can't control myself
Don't know myself

Suffocation
Dig deep to bury myself
Over and over again
Know myself
I can't control myself
Dig deep to bury myself
Over and over again

This is all wrong
I'm stuck in a world where I don't belong
Cast me aside

Let all your hate bury me alive
This is all wrong

Cause I won't let you sleep in the darkness
Closing my eyes look a new dimension
