

Deep inside my soul
Empty to the core
But you'll never know
You'll never know

Friends become a foe
Out of my control
But you'll never know
You'll never know

I'm trapped in my head
This place is a mess
But one of these days I will leave this behind like I wished I did
I'm trapped in my head
This place is a mess
But one of these days I will leave this behind like I wished I did

I wish I did
I wish I did
I wish I did

Never had the confidence to say something
I kept quiet till they made me break something
My father left the house I didn't say nothing
Now mom and I don't talk enough to say something
Usually these kids want sympathy before they bleed
But they're giving nothing back to everybody who is in need
Who am I to speak
I'm just a lonely man in need of four letter word that no one can preach

I'm trapped in my head
This place is a mess
But one of these days I will leave this behind like I wished I did
I'm trapped in my head
This place is a mess
But one of these days I will leave this behind like I wished I did

I wish I did
I wish I did
I wish I did
