

I can see the wicked that is hidden in your eyes
Finger on the trigger with the gun behind your back
My blood my flesh my corpse
Come and fucking take me
Come and take me

Everybody knows and nobody knows
What you do to them, what you do to me
All the broken ones, all the troubled ones
What you do to me what you do to them back

Everybody knows and nobody knows
Everybody knows and nobody knows
What you do to me what you do to them
What I do to you you will do it right back

A` yatte kō yatte
Sō yatte ittatte
Mittomonai no ga bare teru dake
Kimitoboku o kurabe teru
Reberu ga hiku sugite ukeru
Ano ko to Sonoko ga shaberu
Senaka ni kakushita naifu
Neko o kōmuru no ni hisshi
Watashi no me o mite shaberina bitchi

Everybody knows and nobody knows
Everybody knows and nobody knows
What you do to me what you do to them
What I do to you you will do it right back

Come and skin my everything
Wear it like you're superman
Silence of the lamb bitch
You're a fucking lunatic

Heed my words
I'm the curse I'm the venom
Seeping through your mind
While you're rotting in your sleep

Everybody knows and nobody knows
Everybody knows and nobody knows
What you do to me what you do to them
What I do to you you will do it right back

You want it all
Well come and get it

You want it all
Well you can come and get some
Chaos keiosu Chaos keiosu
Kakatte koi yo
Well you can come and get some

I can see the wicked that is hidden in your eyes
Finger on the trigger with the gun behind your back

My blood my flesh my corpse
Come and fucking take me
Come and take me

Everybody knows and nobody knows
What you do to them, what you do to me
All the broken ones, all the troubled ones
What you do to me what you do to them back

Everybody knows and nobody knows
Everybody knows and nobody knows
What you do to me what you do to them
What I do to you you will do it right back
