

Cool

Knox Hamilton

I see you as different than all of your friends who fall in line
Now I see you changing your mind, just give it time
You've got the world in a knot, just like my heart

Keep your head up baby girl who knows
We just might figure it out
All I wanted was to let you know
I can't get you out of my head
All of this fighting is getting us nowhere
I would leave now if you didn't care
But there is no cool quite like your cool
You've got nothing to prove

Didn't wanna be like them, I just wanted to get through to you
Now I see you rolling your eyes, much to my surprise
I said it and I meant it, why can't I make you believe it?
You tend to be my answer to everything

Keep your head up baby girl who knows
We just might figure it out
All I wanted was to let you know
I can't get you out of my head
All of this fighting is getting us nowhere
I would leave now if you didn't care
But there is no cool quite like your cool
You've got nothing to prove
There is no cool quite like your cool
You've got nothing to lose

Don't be something that you're not
You've got the world in knot just like my heart
I said it and I meant it, why can't I make you believe it?
You tend to be my answer to everything
Ending that movie but it's okay
Leaving it behind in a free way
Breaking up baby do it your way
I'm scared to death and it's okay

Keep your head up baby girl who knows (Leaving it behind in a free way)
All I wanted was to let you know (I'm scared to death and it's okay)
All of this fighting is getting us nowhere
I would leave now if you didn't care
But there is no cool quite like your cool
You've got nothing to prove
There is no cool quite like your cool
You've got nothing to lose
