

I'd rather you lonely, I don't know why
You have been friends with some other guy
This was my fault, let's give it sometime
Maybe there's some way to change your mind

Get out, isn't that what you told me?
I'm never gonna change my mind
Get out, I would rather be lonely
Just leave it to your guitar

Get out, isn't that what you told me?
I'm never gonna change my mind
Get out, I would rather be lonely
Just leave it to your guitar

You're driving me wild
I'm losing my mind
You're driving me wild
I'm losing my mind over you-

Oou-ou-ou-ou-ou
Oou-ou-ou-ou-ou
You drive me wild
You drive me wild

I told myself I would never make you cry
I've broken my promise too many times
It was my fault but I don't know why
You can't forgive me just one more time

Get out, isn't that what you told me?
I'm never gonna change my mind
Get out, I would rather be lonely
Just leave it to your guitar

Get out, isn't that what you told me?
I'm never gonna change my mind
Get out, I would rather be lonely
Just leave it to your guitar

You're driving me wild
I'm losing my mind
You're driving me wild
I'm losing my mind over you-

Oou-ou-ou-ou-ou
Oou-ou-ou-ou-ou
You drive me wild
You drive me wild

You're driving me wild
You're driving me wild

You're driving me wild
I'm losing my mind
You're driving me wild
I'm losing my mind over you-

Oou-ou-ou-ou (I'm not over you babe)
Oou-ou-ou-ou (Oh you drive me crazy)
You drive me wild
You drive me wild (Over you)

Oou-ou-ou-ou (I'm not gettin over you babe)
Oou-ou-ou-ou (Oh you're driving me wild)
You drive me wild
You drive me wild
