

## Work It Out

Knox Hamilton

I know what you're doing when you're falling apart  
I know how you're feeling when you're breaking my heart  
I know we've debated, but it's over, love  
That's all for us, well, maybe we can work it out  
I know what you're doing when you're falling apart  
I know how you're feeling when you're breaking my heart  
I know we've debated, but it's over, love  
That's all for us, well, maybe we can work it out

I know, I know  
I know, I know  
I know, I know  
I know we can work it out  
I know, I know  
I know, I know  
I know, I know  
I know we can work it out

I know why you're fuming at a thousand degrees  
I know you'd like to take one last shot at me  
I know we've debated, but it's over, love  
That's all for us, now why you want to swing at me?  
I know why you're fuming at a thousand degrees  
I know you'd like to take one last shot at me  
I know we've debated, but it's over, love  
That's all for us, now why you want to swing at me?

I know, I know  
I know, I know  
I know, I know  
I know we can work it out  
I know, I know  
I know, I know  
I know, I know  
I know we can work it out

I know, I know  
I know, I know  
I know, I know  
I know we can work it out  
I know, I know  
I know, I know  
I know, I know  
I know we can work it out
