

# D.N.A

Knox

Look at you go  
Makin' moving on looking easy, not me  
I'm afraid to leave home  
Terrified that you might see me  
That you don't need me now and

Hell's a smile on your face without me  
I'm worse off than back when you found me  
Don't ask about me, I don't wanna have to lie

'Cause I spent my summer high  
I've spent like every night so off-uh-my face  
You're still in my DNA  
So do not ask, do not ask if I'm alright  
'Cause you're everywhere I hide inside of my brain  
You're still in my DNA  
So do not ask, do not ask if I'm okay

When you know I'm not  
You're the one who left me in the parking lot  
You're one who's living like your life ain't stopped  
And I'm the one who's been living with all I've lost

Hell's a smile on your face without me  
I'm worse off than back when you found me  
Don't ask about me  
I don't wanna say I'm fine

'Cause I spent my summer high  
I've spent like every night so off-uh-my face  
You're still in my DNA  
So do not ask, do not ask if I'm alright  
'Cause you're everywhere I hide inside of my brain  
You're still in my DNA  
So do not ask, do not ask if I'm okay

Do not ask if I miss you  
'Cause I might have to tell the truth  
I can't shake the fact you're all I had to lose  
So do not ask if I miss you  
'Cause I might have to tell the truth  
I can't shake the fact you're all I had to lose

So I spent my summer high  
I've spent like every night so off-uh-my face  
You're still in my DNA  
So do not ask, do not ask if I'm alright  
'Cause you're everywhere I hide inside of my brain  
You're still in my DNA  
So do not ask, do not ask if I'm okay
