

Going, Going, Gone

Knox

Lipstick message on my bathroom mirror
Said, "By the time you read this, I'll be West Coast bound"
I'm cooked, I guess she couldn't get any clearer
No, I was nothing but the weight on her shoulders, I was holding her down

She left no trace on this side of town
No goodbye kiss, no, "See you around"
I'm still right here, both feet on the ground
Wonderin' where you are now

Like, is it a bird, is it a plane
Or is it an angel taking my heart away?
Because the second I know what I want
Oh, she's going, she's going, she's gone
Was she ever here? Was she ever mine?
Was she just a shooting star burning up in the night?
I could've given her all that I got
But I let her go and she's going, she's going, she's going, she's gone

Oh, what a way to discover that we're no good for each other
Woke up alone in these covers, I guess I'm just another sucker
I went to sleep, she left the key
Took everything except for me

She left no trace on this side of town
No goodbye kiss, no, "See you around"
I'm still right here, both feet on the ground
Wonderin' where you are now

Like, is it a bird, is it a plane
Or is it an angel taking my heart away?
Because the second I know what I want
Oh, she's going, she's going, she's gone
Was she ever here? Was she ever mine?
Was she just a shooting star burning up in the night?
I could've given her all that I got
But I let her go and she's going, she's going, she's going, she's gone

Knowing she's the best I'll ever get
And now I sleep with my regret
I watch her leave, and stream about the sky

Like, is it a bird, is it a plane
Or is it an angel taking my heart away?
Because the second I know what I want
Oh, she's going, she's going, she's gone
Was she ever here? Was she ever mine?
Was she just a shooting star burning up in the night?
I could've given her all that I got
But I let her go and she's going, she's going, she's going, she's gone

She left no trace on this side of town
She's so far, so far gone
No goodbye kiss, no, "See you around"
She's going, she's going, she's gone
