

Leg Day

Knox

Here we go again your shoulders frozen over
Time for me to play my least favourite game of all time
I'm trying to guess what I did wrong, she keeps a folder
Of all the stupid shit I said and did and every single
Lie, I never told, I swear to God I'm faithful
I think it's getting old, girl why are you so hateful

You should let this rest in peace
Cause' you could get the best of me
I wanna be the one you're leaning on
But you would rather think that you got cheated on
I'm stuck in the passenger seat and the way you drive
Trust is a one way street
Cause' you're a baddie but you're stuck in your delusions
Only got a fattie from the jumping to conclusions

Take me back in time to you and I and coffee on your couch
Meant the world then but it don't mean one God damn thing to me right now
Cause' you say I've been acting shady
And I think you just might be crazy
I know you hate it when I call you that, but I'm not gonna
Lie, I hate it here, could use a drink or fifteen
I'm being sincere, girl you might fucking kill me

You should let this rest in peace
Cause' you could get the best of me
I wanna be the one you're leaning on
But you would rather think that you got cheated on
I'm stuck in the passenger seat and the way you drive
Trust is a one way street
Cause' you're a baddie but you're stuck in your delusions
Only got a fattie from the jumping to conclusions

She never skips leg day
It's driving me insane
She never skips leg day
It's driving me insane

You should let this rest in peace
Cause' you could get the best of me
I wanna be the one you're leaning on
But you would rather think that you got cheated on
I'm stuck in the passenger seat and the way you drive
Trust is a one way street
Cause' you're a baddie but you're stuck in your delusions
Only got a fattie from the jumping to conclusions

She never skips leg day (She never skips leg day)
It's driving me insane (It's driving me insane)
She never skips leg day (She never skips leg day)
It's driving me insane
