

## Now & Then

Knox

Don't you call me crying, don't apologize  
Don't come out the woodwork, lookin' for a ride  
Actin' like a day one, we're not even friends  
You don't need me now 'cause you didn't need me then

Late to the party, you're gettin' kicked out  
Dropping my name like it's your favorite sound  
Saying you're sorry because you missed out  
But what about, what about, what about when

You said I wasn't good enough  
Old news, now you can't get enough  
How cute, you're tryna hit me up  
But let me tell you what

Don't you call me crying, don't apologize  
Don't come out the woodwork, lookin' for a ride  
Actin' like a day one, we're not even friends  
You don't need me now because you didn't need me  
Back when I was in the dirt  
It's funny how you act when all the tables turn  
Write it down on paper, so you don't forget  
You don't need me now 'cause you didn't need me then

What a coincidence, you say you're tryin' to hang  
Tellin' everyone you know me, but you barely knew my name  
Didn't want me in my hoodie, now you love me in my J's  
So baby, take my wallet, go and buy yourself some shame 'cause

You said I wasn't good enough  
Old news, now you can't get enough  
How cute, you're tryna hit me up  
But let me tell you what

Don't you call me crying, don't apologize  
Don't come out the woodwork, lookin' for a ride  
Actin' like a day one, we're not even friends  
You don't need me now because you didn't need me  
Back when I was in the dirt  
It's funny how you act when all the tables turn  
Write it down on paper, so you don't forget  
You don't need me now 'cause you didn't need me then

You don't need me now  
You didn't need me then  
You don't need me now

Don't you call me crying, don't apologize  
Don't come out the woodwork, lookin' for a ride  
Actin' like a day one, we're not even friends  
You don't need me now 'cause you didn't need me  
Back when I was in the dirt  
It's funny how you act when all the tables turn  
Write it down on paper, so you don't forget  
You don't need me now 'cause you didn't need me then

You don't need me now, you don't need me

You don't need me now, you don't need me  
You don't need me now, you don't need me now  
Because you didn't need me then
