

Gone

Knuckle Puck

I did what I do best
Forgot myself
Got overdressed like everybody else
A glance and a half smile
Black heels on the white tile
It took seven years for your path to realign
But I'll still think of you
On the 5th of June
Cause when I saw you I lost you all over again

Gone
Doesn't it feel good to be invisible
Gone
Just like the way I used to be
Gone
Have I been fading away?
Yeah, I'm so
Gone, gone

And I can feel your stare like dynamite
Breaking silence with irish goodbyes
But I'm not who you remember
Just who do you remember?
Since you stole it all away
You stole it all away

You need a change of pace without my ghost
But you're better off when I go
A painful anecdote sure to stunt your growth
You're better off, better of when I'm

Gone
Doesn't it feel good to be invisible
Gone
Just like the way I used to be
Gone
Have I been fading away?
Yeah, I'm so
Gone, gone

Shapeshifter
Shapeshifter
There's no way back
There's no way back
Shapeshifter
Shapeshifter
There's no way back
There's no way back

Doesn't it feel good to be invisible
Just like the way I used to be
Gone
Have I been fading away?
Yeah, I'm so
Gone, gone

Shapeshifter

You're never gonna get the girl
There's no way back
There's no way back
Shapeshifter
You're never gonna change the world
There's no way back
There's no way back
