

Green Eyes (Polarized)

Knuckle Puck

Gave up like what's the god damned use?
Sunk back to me with concrete shoes
Green eyes on me, fluorescent gloom
Cause it's all twilight and dayglow
Until one just up and goes
It's the darker half that no one has to know
Where are you now?

When one good thing marks the ending of another
Why can't we let it be like spring into the summer?
You put your faith aside and cast yourself into the great divide
Would you let me see through green eyes?
You let me see through green eyes
Green eyes, green eyes

Third eye don't mind the radius
I'll keep my cool if you keep your distance
What's right for you ain't always good for business
Cause it's all brick walls and plastic trees
And we're both caught in between
Where we are now and who we need to be

When one good thing marks the ending of another
Why can't we let it be like spring into the summer?
You put your faith aside and cast yourself into the great divide
Would you let me see? Would you let me see?

Polarized by what you thought
Would be and never did become
Polarized by what was lost
Let go to see what must be done

When one good thing marks the ending of another
Why can't we let it be like spring into the summer?
You put your faith aside and cast yourself into the great divide
Would you let me see through green eyes?
