

# Groundhog Day

Knuckle Puck

We're just getting started  
And the end is nowhere in sight  
The goal posts are farther  
And we're stuck here in the meantime  
So this is the difference  
Between boundaries and distance  
I'm taking them back one by one

Groundhog Day  
Nothing of you will remain  
Please don't stay

You overslept  
And now you're all alone  
With no safe place  
That you can call home  
Stop neglecting your health  
Just to punish yourself  
Or bury your hopes  
In a grave if their own  
Six feet underground

Groundhog Day  
Nothing of you will remain  
Please don't stay

Groundhog Day  
Nothing of you will remain  
Please don't stay

Groundhog Day  
Nothing of you will remain  
Please don't stay

Climb out  
From wherever you are  
Climb out and face the music

Climb out  
From wherever you are  
Climb out and face the music

Climb out and face the music  
Climb out and face the music  
Climb out and face the music  
Climb out and face the music
